

Senior Software Engineer / Team Lead | AI Engineering

Ex- Booking Holdings | Fortune 500 | 7+ Years Experience

Email: kalymkhan007@gmail.com

Phone: +91 7208651794

SKILLS

Frontend: React.js, Next.js, Remix.js, Micro Frontends, JavaScript, TypeScript, Accessibility (WCAG AA, ARIA)

Backend / API Integration: Python, FastAPI, Node.js, Express.js, GraphQL, Apollo Client, Firebase.

AI Engineering: Vercel AI SDK, LangChain, Google AI SDK, Prompt Management Systems, NDJSON Streaming, RAG, LLM Applications, Tool Calling, LLM Evaluation, A/B Testing, Patronus AI.

Databases & Storage: DynamoDB, PostgreSQL, MongoDB, Supabase

UI & Design Systems: Tailwind CSS, shadcn/ui, Ant Design, Material UI, Priceline One, Storybook

State Management: Redux, Redux-Thunk, Zustand, Context API

Testing & DevOps: Jest, React Testing Library, Cypress, Docker, GitHub Actions (CI/CD), Git

Performance & Observability: Web Vitals, Lazy Loading, Bundle Optimization, Sentry, Splunk, New Relic

AI-Assisted Development: Claude Code, Cursor AI, GitHub Copilot.

EXPERIENCE

Imagine Learning (Learning Mate Payroll)

Senior Software Engineer | Sept 2025 - present

- **Pango Education** (AI-powered Education Companion Widget App)
Tech Stack: React.js, Python FastAPI, ChatGPT-5, DynamoDB, NDJSON, Patronus AI
- **Owned frontend architecture** and led a complete **architectural rewrite**, establishing scalable foundations for curriculum-aligned AI feature expansion.
- **Architected NDJSON-based streaming overhaul**, improving real-time AI response delivery, parsing efficiency, and error handling across the platform.
- **Built AI Prompt Management Platform from scratch**, migrating from S3 to **DynamoDB** with version control, reusable templates, A/B testing across 100+ prompts and multiple teams.
- Developed an **AI Tutor flow** driving **40%+ higher engagement**, guiding **K-12 students** from assessments to **personalized chat-based remediation** to close learning gaps faster
- Architected application-wide **observability and analytics**, integrating **JetStream, New Relic, Pendo**, and **Patronus AI** for application monitoring, user engagement insights, and AI quality evaluation.

Priceline (Booking Holdings | Fortune 500)

Software Engineer Level 2 | July 2022 - April 2025

- **Penny** (AI-powered Chat Travel Assistant)
Tech Stack: React.js, Next.js, Vercel AI SDK, ChatGPT-4, LaunchDarkly, Splunk.
- **Built AI-powered travel assistant** using **React.js, Next.js, and Vercel AI SDK**, enabling real-time conversational travel support.
- Integrated **Server-Sent Events (SSE)**, **tool calling & streaming** updates for smooth, conversational workflows
- **Developed RAG-powered interfaces** surfacing contextual **policy and itinerary data** to improve response grounding and accuracy and reducing **LLM hallucinations**.
- Contributed to **65% reduction in agent-assisted queries** and **45% decrease in support resolution time**, supporting **\$12M+ annual cost savings**.

- **AI-Powered IVR System – Priceline.com**

Tech Stack: Node.js, Fastify, Amazon Connect, Twilio WebSockets, ChatGPT-4, LaunchDarkly, Arize AI

- **Architected real-time AI IVR system** using **Node.js, Fastify, and ChatGPT-4 Realtime API** for booking, cancellation, and refund workflows.
- **Integrated Amazon Connect and Twilio WebSockets** for low-latency voice streaming, reducing **call handling time by 40%**.
- Applied **prompt engineering** and integrated **Arize AI observability** to improve response accuracy by **35%** and monitor production AI performance.

- **C3-Assist - (A micro frontend Customer Service App)**

Tech Stack: React.js, Remix.js, TypeScript, GraphQL, Styled Components

- Developed a scalable **CRM application** streamlining **refund, cancellation, and rebooking workflows**, reducing **average resolution time by 40%**
- **Built modular UI components** using **Atomic Design and SOLID principles**, improving maintainability and extensibility across micro frontend applications.
- **Integrated Remix apps** with **Facebook Kustomer CRM**, implementing **input sanitization and XSS protection** using DOMPurify.
- Used **LaunchDarkly** to manage frontend feature flags and conduct **A/B testing**, improving UX rollout stability and user engagement

AxiomIO IT Services Pvt Ltd

Software Engineer | July 2021 - July 2022

- **Mahindra Insurance Brokers Limited - POSP (Salespersons onboarding and management platform)**

Tech Stack: React.js, Redux, Redux-Thunk, Sass, Bootstrap 4

- **Led the frontend development within a 6-member team**, collaborating with **4 business partners** on onboarding and administration platforms serving **1,000+ users**.
- **Integrated OCR APIs and Stripe payments**, streamlining KYC verification and subscription onboarding workflows.
- **Implemented browser media APIs** for audio/video recording, photo capture, and real-time previews within web applications.

Raw Engineering Inc

Application Engineer | May 2019 - July 2021

- **Inseego.com & Pella.com**

Tech Stack: React.js, Next.js, React-Bootstrap, Sass, ADA compliance, ContentStack CMS

- Developed **100+ responsive, WCAG AA** accessibility compliant web pages using **React.js, Next.js, Gatsby.js**, and **GraphQL**, leveraging **SSG/SSR** for optimized delivery and **SEO** performance
- Monitored and improved **site performance** using **Lighthouse** and **Google PageSpeed Insights**, optimizing **FCP, LCP, CLS**, and **FID** metrics
- Designed **headless CMS schemas**, integrated **GraphQL API** & converted **Figma** designs to production-ready UI

EDUCATION

- Master of Science (M.Sc.) in Computer Science, Mumbai University, India, 2018
